

## Tour of Commercial Motor Vehicle Inspection Station

Gary Capps provided a tour of the Greene County Commercial Motor Vehicle Inspection Station to members of the Kentucky Transportation Cabinet and the Kentucky Transportation Center. The purpose of their visit was to observe an infrared wheel-end inspection system (figure below) in operation and to gather feedback from enforcement personnel who have operational experience on this type of equipment. This effort was conducted as a part of ORNL's management of the CMVRTC. The CMVRTC team members are Gary Capps, Oscar Franzese, Mary Beth Lascurain, Sheila Moore, and Adam Siekmann.
